

**Errors of Fact**

On behalf of Truckee Meadows Community College, upon review of the NAAB 2023 Visiting Team Report (VTR), November 20-21, 2023, the following "Errors of Fact" have been noted. Page numbers correspond with the VTR.

- 1) On page 15, under SC.4 Technical Knowledge, they state a review ABS 331 (Environmental Control Systems I) and ABS 322. This is an error of fact: ABS 322 does not exist. Did they mean "ABS 332 (Environmental Control Systems II)?"
- 2) On page 15, they refer to AAD 351 (Design Studio II) as a two-semester day spa project. This is an error of fact; It was only one-semester. However, ABS 331 and ABS 332 did involve a two-semester Day Spa.
- 3) On page 20, the report states that the Department Chair oversees all faculty. This is an error of fact. Per the NFA contract, the department chair supervises the part-time faculty. The Deans supervises the full-time faculty.
- 4) On page 20, the VTR report states TMCC's "Aviation" program as supported by the Technical Sciences Division. This is not true, it actually resides within TMCC's Division of Life Sciences, Allied Health and Public Safety.
- 5) On page 22, the report indicates assessment results get routed to the Program Leadership Council (PLC) and Advisory Board. This is an error of fact. Assessments at the time of VTR were not circulated to the PLC nor the Advisory Board Chairs; only to the Chair and Dean of Technical Sciences.
- 6) On page 25, the report indicates "part-time faculty can choose their offices...". Part-time faculty are not assigned offices since we don't have enough real estate to go around. The Dean of Technical Sciences, however, created a shared part-time office space in EDSN 100 to be used on a first come first served basis.

Thank you for your thoughtful consideration. Please feel free to reach out to me with any questions or Concerns.

Sincerely, Kreg Mebust

Professor of Architecture,  
Truckee Meadows Community College
